## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-3, 5-6, 8, 10-12, 14-17, 19, and 20 are allowed.

The following is a statement of reasons for allowance:

2. The cited prior art, Matchett US Patent No. 5,229,774, Mukohzaka US Patent No. 5,910,999, and Okubo US Patent No. 4,461,028, fail to teach or suggest a “data compiler to integrate samples of data collected by the data collector collected over time to create a second identity reference to replace the first identity reference” (see Appeal Brief, Pages 6, 9-10). Applicant’s argument that the combination of Mukohzaka and Okubo would not teach the above cited feature is deemed persuasive by the Examiner. However, in response to Applicant’s assertion on page 9 of the appeal brief that Mukohzaka teaches a filter that is never updated, Examiner notes that the cited portions cited by Applicant fail to show this alleged feature. Examiner contends that the while Mukohzaka’s system is designed to avoid having to update a filter, it does not expressly forbid it and the modification of Okubo would not render Mukohzaka inoperable. In light of the failure to teach all of the recited features, the cited prior art fails to anticipate or render the above-cited claims obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
